

If everybody in the world makes a small, meaningful, impact, imagine how much impact our world would receive. The Ingenuity Challenge is a way to kickstart your own impact, amplifying strong ideas that better your own community through unique thinking. The Ingenuity Challenge is intended to support those in the second phase of the design cycle, but we can adapt to accept excellent applications from other stages.

Use this form to tell us about your idea and how you are planning to implement it. We are looking for fresh thinking but also practical ideas you can actually do. All questions are required unless otherwise stated.

Send completed form as PDF attachment via email to <a href="mailto:apply@ingenuitychallenge.com">apply@ingenuitychallenge.com</a>.

What is your full name?
How should we contact you? (give an email address, phone number, etc)
What is the name of your school?
What is the address of your school?
What class are you in? (9 - 12)
What is the name of a teacher that can support your application?
What is the email address of that teacher?

An Elevator Pitch is a short and easy to remember description of what you're creating. Tell us about your idea in around 75 words.	
Every successful project starts with a clearly identified problem. Tell us what problem you are solving, who your project will impact and how. (around 200 words)	

What makes your idea unique? Has the idea been tried before? If it has, how will you address it in a unique way? (around 200 words)		
How do you plan to implement your idea? (around 200 words)		

Describe your vision for your project 1 month, 3 months, and 1 year from now. Aim for about 100 words per period.
1 month:
3 months:

1 year:	
How can we best support you a	as you move forward with your project?
Do you have anything else to te	ell us about you or your project? (optional)
